### ***Associate Member of the Kosciuszko to Coast Partnership***

**2011-12 & 2012-13**

Kosciuszko to Coast (K2C) is a partnership of eleven natural resource management agencies and community organisations. Its overarching objective is to increase the resilience, extent and connectedness of target ecosystems and linkages across the K2C region, through working with the community, landholders and indigenous locals. The key focus areas are grasslands, woodlands, wetlands and valley floor watercourses, small bush birds, arboreal mammals and threatened forest vegetation communities.

K2C is very proud to be a regional partner in the Great Eastern Ranges Initiative which provides a very broad conservation perspective and support base to do the work regionally and K2C has over many years engaged with many landowners, groups and businesses.

We are now offering associate membership for two years to those who support K2C's objectives and/or who wish to work with us. Associate membership will entitle you to receive our *K2C Groundcover* newsletter (published three times a year), to attend K2C functions, receive natural resource management information, help and support from K2C. In return you are asked to promote K2C and to work with us to achieve our objectives. If you are already on the K2C email list we would encourage you to take up this opportunity to become an associate member.

For landowners, you may list your property on our *K2C Register of Properties Managed for Sustainability and/or Conservation*, and receive a K2C gate sign. For businesses we will do our best to promote you. K2C Associate membership is free.

Donations, while not expected, are nevertheless welcome. Donations are made to K2C Incorporated which has been established to manage funds for the K2C Partnership. K2C Incorporated does not have deductible gift recipient status but will be applying for that in the near future. Donations may be made by cheque or deposited directly into the following account:
